CIVIL ENGINEERING

It is a great profession. There is the fascination of watching a figment of the imagination emerge through the aid of science to a plan on paper. Then it moves to realization in stone or metal or energy. Then it brings jobs and homes to men. Then it elevates the standards of living and adds to the comforts of life. That is the engineer's high privilege.

ABOUT US

MFTP CIVILS is a black-owned company which has established offices situated in Tzaneen (Limpopo), Hartbeespoort (North West), and Ga-rankuwa (Gauteng).

The company's main areas of business are civil and building construction as well as social facilitation and Health and Safety Consulting services. MFTP CIVILS is a Grade 6CE PE construction company.

The company is committed to be involved in social upliftment, empowerment and providing skills to disadvantaged communities. The firm is also interested in providing facilities to learning institutions in rural communities where the standard of education is too low because of lack of necessary facilities.

The company is eager and interested in networking and forming joint ventures with other groups, organizations or companies so as to share skills and enhance in capacity building. The company is planning a long-term relationships with clients based on excellence, professionalism, honesty as well as shared expertise; and provides total quality, cost-effective and timely solutions and products to satisfy the business needs of its customers.

Our firm ensures good management, leadership, integrity, efficiency, and the use of appropriate cutting-edge technology to yield the most cost-effective results in all assignments.

MISSION STATEMENT

MISSION

To provide high quality services by using cutting edge technology and application of knowledge and skills and the ability to indulge in good practices by following the codes of ethics and standards of civil engineering profession

VISION

The company is determined to work as a team with all stakeholders involved in a project, putting more emphases into the communities themselves where the service is being rendered. The company's policy is more flexible on forming joint ventures and involvement of small emerging enterprises to accomplish the government's dream of skills transfer to communities and individuals.

The company is committed to forming long lasting relationships with clients. Economic empowerment with regard to target groups in communities is on the forefront of our vision. We, as a company have a dream to educate communities during project stages about the importance of the applicability of consciousness on Environmental obligations and requirements which becomes a burden and a threat not only to nature, but to their lives as well. MFTP CIVILS is committed to meeting clients' needs, such as providing solutions that are cost-effective without compromising on quality.
